March 6, 1969

Dr. Joshua Lederberg
Professor of Genetics
Department of Genetics
School of Medicine
Stanford University
Palo Alto, California 94304

Dear Josh:

I am sending, under separate cover, the additional materials I mentioned in my letter the other day. This includes a copy of:

PHS-1440: Symposium on Environmental Lead Contamination

The Lead Hygiene Conference, Lead Industries Association,
Nov. 6-7, 1958, Chicago, Ill.

February 1964 issue of Archives of Environmental Health
devoted to a symposium on lead.

The results of a Medlars search on lead poisoning.

Two pamphlets and information card from the National
Clearinghouse for Poison Control Centers.

Two abstracts from Aerospace Medicine and Biology.

You should be warned that the package adds up to a couple of pounds of material. If your secretary is slight of stature or weak of frame, I suggest you pick it up rather than have her carry it in to you. Also, you may want to think about Dr. Paul Kotin who is the head of the Bureau for Environmental Health, Research Triangle, North Carolina, as another Federal resource person.

Cordially,

EW. R.

Eli A. Rubinstein, Ph.D.
Assistant Director for
Extramural Programs and
Behavioral Sciences

RUBINSTEIN
